# CHINMAYA KUMAR MISHRA

**AI Application Security Engineer | LLM-Powered Vulnerability Analysis | Full-Stack (Next.js, Node.js)**

Bhubaneswar, Odisha, India | 7077835119 | imchinu17@gmail.com | LinkedIn | GitHub | Portfolio

## PROFESSIONAL SUMMARY

Full-Stack Developer with 2+ years of experience, currently building AI-powered application security tools that combine LLM analysis with security scanning to detect vulnerabilities and give developers actionable findings. Experience with RAG, OpenAI API integration, OAuth and GitHub App integrations, and secure API design. Comfortable across the whole stack, from scanner pipelines to the developer-facing dashboard. Familiar with Burp Suite, OWASP ZAP, Semgrep, Nmap and the OWASP Top 10.

## TECHNICAL SKILLS

**AI + Security:** AI-assisted vulnerability analysis, RAG, prompt engineering, OpenAI API, AI chatbots over code repositories

**Security Tools:** Semgrep, Burp Suite, OWASP ZAP, Nmap, OWASP Top 10

**Auth & Integrations:** OAuth 2.0, GitHub Apps, secure REST API design

**Full-Stack:** Next.js, React, TypeScript, Node.js, Express.js, MongoDB, Socket.IO

**Languages:** JavaScript (ES6+), TypeScript, Python, Bash

**Tools & DevOps:** Git, GitHub, Docker, Postman, Vercel

## PROFESSIONAL EXPERIENCE

**Full-Stack Developer - Secure Code LLC (Texas, USA)** | *Remote* | *July 2025 - Present*

- Build full-stack features for AI-powered application security tools using Next.js, React, Node.js and MongoDB.
- Integrate AI/LLM-driven analysis workflows with security scanning to detect potential vulnerabilities and present actionable findings to developers.
- Design secure backend APIs and scanner pipelines connecting repositories, analysis engines and the user dashboard.
- Implement OAuth and GitHub App integrations for repository access.

**Full-Stack Web Developer - Metadee AI** | *Remote* | *January 2025 - June 2025*

- Integrated OpenAI models using Retrieval-Augmented Generation (RAG) to power AI features in the product.
- Built RESTful APIs and optimized performance for seamless frontend-backend integration.

**Freelance Web Developer - Self-Employed** | *Remote*

- Delivered 20+ client solutions with end-to-end ownership: requirement gathering, development, deployment and support.

## PROJECTS

**AI Chatbot for GitHub Repositories** | *Next.js, Express.js, MongoDB, OpenAI API, GitHub App, OAuth*

- Built an AI-powered chatbot that lets users chat with repository files and push code updates directly to GitHub.
- Implemented secure OAuth authentication and GitHub App APIs for repository access.

**GitHub Scanner Platform** | *Next.js, React, Express.js, MongoDB, GitHub App, OAuth, Framer Motion*

- Developed a scanner platform with OAuth and GitHub App integration to fetch repositories and branches and run security scans.
- Designed a responsive, animated UI (Framer Motion) to display scan results clearly.

**BookSaathi - Multi-Tenant Practice Management SaaS** | *Next.js 16, React 19, Node.js, MongoDB, Socket.IO*

- Built a production SaaS with atomic double-booking guards, real-time updates and automated UPI payments.

## EDUCATION

**Bachelor of Technology (B.Tech)** | Parala Maharaja Engineering College, Berhampur, Odisha | July 2018 - July 2021

## CERTIFICATIONS

- JavaScript Algorithms and Data Structures - freeCodeCamp
- Cutshort Certified JavaScript - Advanced
- Frontend Developer (React) - HackerRank
