CHINMAYA KUMAR MISHRA

Application Security Engineer | Secure Code Review & Vulnerability Analysis | Full-Stack Background

Bhubaneswar, Odisha, India | 7077835119 | imchinu17@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Application security focused engineer with 2+ years of full-stack development experience (Next.js, Node.js, MongoDB), with a clear understanding of how real applications are built and where they break. Currently building application security tooling: repository scanning, vulnerability analysis pipelines, OAuth and GitHub App integrations. Hands-on with Burp Suite, OWASP ZAP, Semgrep and Nmap, with working knowledge of the OWASP Top 10.

TECHNICAL SKILLS

Security Tools: Burp Suite, OWASP ZAP, Semgrep, Nmap

Security Concepts: OWASP Top 10, OAuth 2.0, secure REST API design, authentication and authorization, AI-assisted vulnerability analysis

Integrations: GitHub Apps, OAuth-based repository access, scanner pipelines

Languages: JavaScript (ES6+), TypeScript, Python, Bash

Web Stack: Next.js, React, Node.js, Express.js, Django, MongoDB, REST APIs

Tools & DevOps: Git, GitHub, Docker, Postman, Vercel

PROFESSIONAL EXPERIENCE

Full-Stack Developer (AppSec Products) - Secure Code LLC (Texas, USA) | *Remote* | *July 2025 - Present*

- Build security scanning features that connect GitHub repositories to analysis engines and present potential vulnerabilities to developers with actionable findings.
- Design secure backend APIs and scanner pipelines handling repository access through OAuth and GitHub App integrations.
- Integrate AI-assisted analysis with security scanning workflows to surface and triage potential vulnerabilities.
- Develop the Next.js/React dashboard used to review scan results.

Full-Stack Web Developer - Metadee AI | *Remote* | *January 2025 - June 2025*

- Built RESTful APIs and optimized performance for frontend-backend integration.
- Developed and maintained production applications with React, Next.js, Node.js and MongoDB.

Freelance Web Developer - Self-Employed | *Remote*

- Delivered 20+ client solutions end to end, including secure Express.js backend APIs, deployment and support.

PROJECTS

GitHub Scanner Platform | *Next.js, React, Express.js, MongoDB, GitHub App, OAuth, Framer Motion*

- Developed a scanner platform with OAuth and GitHub App integration to fetch repositories and branches and run security scans.
- Designed a responsive, animated UI (Framer Motion) to display scan results clearly.

AI Chatbot for GitHub Repositories | *Next.js, Express.js, MongoDB, OpenAI API, GitHub App, OAuth*

- Implemented secure OAuth authentication and GitHub App APIs for repository access.
- Built chat over repository files with the ability to push code updates to GitHub.

BookSaathi - Multi-Tenant SaaS | *Next.js, Node.js, Express.js, MongoDB, Socket.IO*

- Implemented atomic double-booking guards to prevent scheduling conflicts.
- Built a multi-tenant app with automated UPI payment workflows (Cashfree).

EDUCATION

Bachelor of Technology (B.Tech) | Parala Maharaja Engineering College, Berhampur, Odisha | July 2018 - July 2021

CERTIFICATIONS

- JavaScript Algorithms and Data Structures - freeCodeCamp
- Cutshort Certified JavaScript - Advanced
- Frontend Developer (React) - HackerRank
